George Mason University
College of Education and Human Development
Special Education

EDSE 503-002
Language Development and Reading
Spring 2010

Time: 4:30 – 7:10 p.m. Thursdays
Location: Robinson Hall A; Room 210

Professor: Kelley S. Regan, Ph.D.
Email: kregan@gmu.edu
Phone: 703-993-9858
Office Hours: Thursdays 3:00 - 4:15; or by appointment
Krug Hall 110E

Course Description

Provides in-depth coverage of reading instruction for students with special needs. Topics include language development and emergent literacy skills, reading sub-skills including auditory discrimination and phonemic awareness, decoding and word reading, reading comprehension, and use of technological advances in the teaching of reading. *Note: School-based field experience required.*

Prerequisites*: There are no *required* prerequisites for this course, but each Program in Special Education strongly *recommends a specific sequence*. Please refer to your Program of Studies to determine where this course fits within your overall program.

*Advising contact information: Please make sure that you are being advised on a regular basis as to your status and progress through your program. You may wish to contact Jancy Templeton, GMU Special Education Advisor, at jtemple1@gmu.edu or 703-993-2387. Please be prepared with your G number when you contact her.

Student Competencies

This course is designed to enable students to:

- 1) Describe emergent literacy skills, including concepts about print, phonemic awareness, phonics, syntactical forms of language, vocabulary, and pragmatics.
- 2) Compare and contrast the stages of language development for typical students and students with learning disabilities, emotional disturbance, and mild intellectual disabilities (high-incidence disabilities).
- 3) Describe the rules (e.g., spelling patterns, syllables, morphemes) of language, the forms (e.g., syntax, writing, speaking, listening, spelling) of language, and the functions (e.g., pragmatics, semantics) of language and its relationship to reading comprehension.
- 4) Identify distinctions between language delay/disorders of students with high-incidence disabilities and language differences of students with cultural and linguistic backgrounds.

- 5) Describe the five components of reading identified by the National Reading Panel (phonemic awareness, phonics, vocabulary, fluency, comprehension), and evidence-based practices for the specialized reading and writing instruction delivered to students with high-incidence disabilities.
- 6) Describe diagnostic decision making based on assessments (e.g., informal reading inventories, running records, and curriculum-based assessments) which monitor the ongoing progress of students, and the design and delivery of a balanced approach for students' specialized reading and writing instruction.
- 7) Describe evidence-best practices to effectively differentiate literacy instruction for elementary and secondary students with and without high-incidence disabilities.

Course's Relationship to Program Goals and Professional Organization

This course is part of the George Mason University, Graduate School of Education (GSE), Special Education Program for teacher licensure in the Commonwealth of Virginia in the special education areas of Emotional Disturbance and Learning Disabilities. This program complies with the standards for teacher licensure established by the Council for Exceptional Children (CEC), the major special education professional organization. As such, the learning objectives for this course cover many of the competencies for language development and emerging literacy for individuals with emotional disturbances and learning disabilities.

The CEC Standards are listed on the following web site:

http://www.cec.sped.org/ps/perf_based_stds/common_core_4-21-01.html

The CEC standards that will be addressed in this class include some of the following:

CEC Standard 4 - Instructional Strategies

Skills:

- Use strategies to facilitate integration into various settings.
- Teach individuals to use self-assessment, problem solving, and other cognitive strategies to meet their needs.
- Select, adapt, and use instructional strategies and materials according to characteristics of the individual with exceptional learning needs.
- Use strategies to facilitate maintenance and generalization of skills across learning environments.
- Use procedures to increase the individual's self-awareness, self-management, self-control, self-reliance, and self-esteem.
- Use strategies that promote successful transitions for individuals with exceptional learning needs.

CEC Standard 6 – Language

Knowledge:

- Effects of cultural and linguistic differences on growth and development.
- Characteristics of one's own culture and use of language and the ways in which these can differ from other cultures and uses of languages
- Ways of behaving and communicating among cultures that can lead to misinterpretation and misunderstanding.
- Augmentative, alternative, and assistive communication strategies.

Skills:

- Use strategies to support and enhance communication skills of individuals with exceptional learning needs.
- Use communication strategies and resources to facilitate understanding of subject matter for students whose primary language is not the dominant language.

Class Companion Websites

A version of the Jennings Informal Inventory (IRI) is at this web site:

www.ablongman.com/jennings5e as Appendix C. You will need to use an IRI to complete your case study assignment.

Required Access to Course Blackboard Site

Blackboard will be used to post important information for this course. Plan to access the Bb site several times per week; announcements and resources are posted on the Bb site in between class sessions. You are responsible for accessing the materials – for printed copies, etc. prior to class. <http://courses.gmu.edu> Click the Login tab. Your Login and password is the same as your George Mason e-mail login. Once you enter, select EDSE 503 course.

Graduate School of Education Statements of Expectations

The Graduate School of Education (GSE) expects that all students abide by the following:

- Students are expected to demonstrate professional behavior and dispositions. See www.gse.gmu.edu for a listing of these professional dispositions.
- Students must follow the guidelines of the University Honor Code. See http://www.gmu.edu/catalog/apolicies/#TOC_H12 for the full honor code.
- Students must agree to abide by the university policy for Responsible Use of Computing. See <http://mail.gmu.edu> and click on *Responsible Use of Computing Policy* at the bottom of the screen.
- Students with disabilities who seek accommodations in a course must be registered with the GMU Disability Resource Center (DRC) and inform the instructor, in writing at the beginning of the semester. See www.gmu.edu/student/drc or call 703-993-2474 to access the DRC.

Other Course Expectations

1. **Professional Behavior:** For a satisfactory grade in the course, students are expected to attend all classes, arrive on time, be prepared for class, demonstrate professional behavior (see *Professional Disposition Criteria* at <http://www.gse.gmu.edu> for a listing of these dispositions), and complete all assignments with professional quality in a timely manner. To successfully complete this course, students need to adhere to the due dates for specific readings and assignments to be completed. If you feel you cannot adhere to the schedule noted in the syllabus, please contact the Instructor immediately to discuss options for withdrawing and completing the course during another semester.
2. **Promptness:** All assignments must be submitted *on or before* the assigned due date. **In fairness to students who make the effort to submit work on time, 5% of the total assignment points will be deducted each day from your grade for late assignments.**
3. **Written Products:** All written assignments must be prepared in a professional manner following guidelines stated in the Publication Manual of the American Psychological Association (6th edition). All final products must be typed. Products that, in the judgment of the instructor, are unreadable or unprofessionally prepared will be returned un-graded or assigned a lower evaluation.
4. **Placement for this Field Experience/Case Study:** IF you have difficulty finding a student for the case study assignment, Mason's Field Placement Specialist Lauren Clark lclarkg@gmu.edu can assist in placing Mason students at school sites. Mason is also required to track where self-placed students will complete their field experiences. Consequently, each person must access <http://cehd.gmu.edu/endorse/ferf> to complete the information requested (i.e., inform GMU of the school where you are working, the grade level of the youngster, and the approximate number of hours you anticipate working with the youngster) after targeting the youngster with whom this Case Study will be completed. Note: you will need to observe a reading classroom AND you will need access to work with a child with a disability over the semester.
5. **Signature Assignment:** For student evaluation, program evaluation, and accreditation purposes, students will be required to submit a signature assignment from each of their Special Education courses to Taskstream, an electronic portfolio system. In addition, students completing Midpoint and Final Portfolio courses will use Taskstream to create a full portfolio of their work based on assignments completed throughout their program. For this reason, students will need to retain electronic copies of all course products to document their progress through the GSE Special Education program. In addition to the signature assignment, products from this class can become part of your individual program portfolio used in your portfolio classes that

documents your satisfactory progress through the GSE program and the CEC performance based standards.

Note:* **Every student registered for any EDSE course as of the Fall 2007 semester is **required** to submit signature assignments to TaskStream (regardless of whether a course is an elective, a “one time” course, or part of an undergraduate minor). TaskStream information is available at <http://gse.gmu.edu/programs/sped/>. Failure to submit the assignment to TaskStream will result in reporting the course grade as Incomplete (IN). Unless this grade is changed, upon completion of the required submission, the IN will convert to an F nine weeks into the following semester.*

ASSIGNMENT DESCRIPTIONS

1. Self-paced Completion of Fox Text (5 points)

In order to effectively teach reading and language, teachers must be proficient in phonics. You will need to independently complete the Fox self-instruction textbook. You are expected to complete each of the self-paced exercises in the text. Write in the text and make notes/highlights for yourself. You have the option of accelerating your pace. Plan to turn in the Fox text at the beginning of the class session on the date for the mid-term. The instructor will review your text for credit. *Approximately half of the text should be completed by this time in order to adequately be prepared for the final exam.*

2. Group Project (15 points)

The Group Project Assignment is designed to help you prepare for the implementation phase (PART II of the case study) of your final project. You will be researching a teaching strategy in the area of reading to address a specific student need and present the findings with your assigned group. Specific guidelines for the assignment and grading rubric will be provided by the instructor.

Group Presentation Rubric		
<i>Component</i>	<i>Points</i>	<i>Comments</i>
Definition <ul style="list-style-type: none"> • Accurate description of the resource you used • Domain is accurately described 	/1	
Content <ul style="list-style-type: none"> • Presentation includes a thorough description of NEW content addressed within this topic of reading. • The information presented is given practical relevance for classroom teachers. 	/3	
Content/Strategy share <ul style="list-style-type: none"> • Incorporation of evidence-based practice(s) to support instruction in your selected area of reading 	/2	
Activity <ul style="list-style-type: none"> • Presentation includes at least one activity which is interactive with the 	/2	

group either to stimulate conversations about the topic and/or to reinforce learning of this topic.		
Handout <ul style="list-style-type: none"> At least one clear and applicable handout is distributed to the class, which focuses on the topic area of reading and your recommended strategies 	/2	
Presentation <ul style="list-style-type: none"> Presentation includes at least one type of visual support (PowerPoint, overheads, posters, etc.(1 point) Visual support is easy to read and understand from all areas of the classroom. (1 point) Presentation is clear, accurate and no longer than 15 minutes. (1 point) 	/3	
Collaborative Efforts <ul style="list-style-type: none"> All areas of the presentation are cohesive and not disjointed from each other Everyone has a clear and important role for the presentation 	/2	
TOTAL	/15	

3. Reading Case Study: (40 points)

The Reading Case Study requires selection of a student with a disability with whom you will implement a comprehensive sequence of tasks representing excellent practices in reading assessment and intervention. People who are not currently working with students with disabilities may network with colleagues in the course or other personal/professional contacts to ensure they have a youngster to work with during the semester for this assignment. Also note Item # 4 under Other Course Expectations. Specific guidelines for the assignment will be provided by the instructor.

Here are some general expectations to guide your planning:

The duration of 'a meeting session' with your student varies. That is, if you are permitted to extend beyond 20-30 minutes with an individual in order to complete the tasks, the number of sessions may be fewer. We anticipate that with effective planning, preparation, and materials you will be able to complete the tasks for the field placement activities of this project in 4-6 sessions lasting 20-30 minutes per session.

1 meeting: observe a reading class; collect information about your student (meet w/teacher, parent, service provider, face-to-face or by phone, etc.)

NOTE: A copy of the student's IEP is **NOT** required for this assignment. You may request information about the student's abilities and areas of need verbally from the teacher/parent/service provider; OR observe the IEP while in the presence of the adult contact.

2 - 3 meetings: conduct the Informal Reading Inventory (IRI) - floor and ceiling.

- 1 - 2 meetings: collect information using additional skills assessments you have selected

This project will be completed in 2 parts and should be submitted by 4:30 pm on the respective due dates. This assignment is the signature assignment for the course and will be evaluated using the following rubric:

Part I

<p>Student Background</p> <ul style="list-style-type: none"> ▪ Collect demographic and background information <u>significant to reading, writing, and language development</u>. <ul style="list-style-type: none"> ▪ Information obtained should be appropriate based on your relationship with the student (for example, if you are working in a student in your own classroom, it would be appropriate for you to access the student’s school records; however, if you are working with a student you tutor at his home, it would NOT be appropriate to contact his school to ask to see his school records). 	/2
<p>Oral Language Development</p> <ul style="list-style-type: none"> • Consider how the student’s expressive and receptive language (both oral and written) may be impacting the student’s performance in reading and/or writing (including spelling). <ul style="list-style-type: none"> ▪ This information can be obtained when gathering student background information, from observations while testing, and from the test results. 	/2
<p>Reading and Writing Development</p> <ul style="list-style-type: none"> ▪ Correctly administer and accurately score the results of the following assessments: <ul style="list-style-type: none"> ▪ an informal reading inventory (download from www.ablongman.com/jennings5e), ▪ a spelling assessment (DSA to be provided in class), ▪ <i>at least</i> one other supplemental assessment in an area of student weakness (as identified by the IRI or spelling assessment). <ul style="list-style-type: none"> ○ For example, if a student’s decoding skills were particularly weak, you might decide to look more closely at their phonemic awareness development. But, if a student is on grade level in reading, you might decide you want to look more closely at his expressive writing by collecting and evaluating a writing sample using a rubric. ▪ Analyze the results and present the findings in an educational report that: <ul style="list-style-type: none"> ▪ Provides a general description of each assessment including what kind of information can be obtained from the assessment ▪ Presents the results of each assessment including: <ul style="list-style-type: none"> ○ a reporting of the results for each assessment (a table is often helpful here), ○ an indication of whether this area of reading/writing is an area of concern; and ○ a narrative error analysis of student strengths and weaknesses on the assessment given ▪ <u>All completed assessment protocols must be attached to the final report</u> <p><i>503 Requirement: To earn full points, 503 students must demonstrate ability to critically analyze the results beyond identifying general areas of difficulty.</i></p>	/10
<p>Summary</p> <ul style="list-style-type: none"> • Statement of <i>overall</i> strengths and needs of student 	

<ul style="list-style-type: none"> This should be based upon student background information and findings from assessments (including relevant student behavior) 	/1
<p>Recommendations</p> <ul style="list-style-type: none"> Make recommendations for literacy instruction based on areas of weakness identified from your assessments <ul style="list-style-type: none"> Classroom recommendations should be evidence-based and grade/age appropriate Avoid recommendations for specific educational setting placements or specific reading programs that a school would need to purchase (instead, describe the instructional needs of the child) Classroom/testing accommodation recommendations should be based on information obtained from your assessments and written only as a recommendation for the child’s IEP team to consider Make recommendations for reinforcement practice at home that a parent would realistically be able to implement. <p>503 Requirement: <i>To earn full points, 503 student recommendations must include evidence based practice(s) with sufficient detail to be beneficial to an educator reading the report.</i></p>	/3
<p>Style</p> <ul style="list-style-type: none"> Professional report format that targets multiple audiences: parents, teachers, and other educational professionals Professionally written (using APA guidelines for writing style only, not the sections on manuscript preparation) 	/2
Total	/20

Case Study Part II: Plan for an Intervention, Instruction, and Plan to Monitor Progress

<p>Description of Selected Intervention</p> <ul style="list-style-type: none"> Clear and replicable: step by step description of intervention Based upon at least 1 reliable source for research based practices <p>503 Requirement: <i>To earn full points, 503 students must base their interventions on multiple sources of research based practices.</i></p>	/4
<p>Instructional Plan</p> <ul style="list-style-type: none"> Create a measurable IEP goal based on student performance on Part I Write an instructional objective for the intervention you chose Describe the materials you will need to implement the lesson (this includes locating appropriate reading materials) Describe how you will introduce the lesson (or series of lessons) Describe your instruction (include modeling, guided practice, independent practice, assessments) Identify any instructional adaptations 	/10
<p>Monitoring Student Progress</p> <ul style="list-style-type: none"> Locating/develop a progress monitoring measure, Determining how often you will assess the student, and Determine how you will make educational decisions based on student progress 	/5

Writing Style	/1
<ul style="list-style-type: none"> Professionally written (using APA guidelines for writing style only, not the sections on manuscript preparation) 	
TOTAL	/20

4. Midterm (10 points)

The midterm exam includes multiple choice items and short essay questions. This exam will cover assigned readings and class lectures up to the midterm date. A midterm review will be completed during the class session that falls before the midterm exam.

5. Regular Attendance & Participation (14 points)

Students are expected to attend all classes, arrive on time, and stay for the duration of the class time. **Three or more absences will result in no credit for this course.** As you all lead active lives and circumstances sometimes happen at unfortunate times – so, if you are unable to attend class, it is your responsibility to make arrangements to obtain notes, handouts, and lecture details from another student. Students who are absent are held responsible for the material covered and assignments given and due. It is also recommended that you notify the instructor about absences in advance or within 24 hours after an absence. Be aware that any points earned for participation in class activities during a time of absence will not be earned and cannot be made up.

Points for class attendance and participation are positively impacted by:

- attending class and being psychologically available to learn,
- completing and handing in weekly class assignments, and
- participating in class discussions/activities throughout the semester
- thoughtfully contributing to class discussions
- listening to the ideas of other peers, respectively, and
- demonstrating an enthusiasm for learning.

Points are negatively affected by being late to class, demonstrating a disinterest in the material/discussions (e.g., reflection activities, small group activities, discussions, etc.), and/or absences. Also, please display digital etiquette during class sessions. Use of laptops may be used to observe the class Powerpoints/materials, specifically.

Each class (14 session): .5 = psychologically invested, prepared, and present; .5 = participation, thoughtful contributions, completed in-class assignments.

* **EDSE 503 Students:**

In schools, master teachers are often expected to take on increasing professional responsibilities that require leadership ability such as: joint lesson planning with other professionals, serving or chairing pre-referral and special education eligibility committees, providing professional development or turn around training to other teachers, and even serving as team leader for instructional planning. Therefore, in addition to regular attendance & participation, graduate students enrolled in EDSE 503 are also required to demonstrate emerging leadership skills. These skills can be demonstrated through active leadership in group activities and presentations throughout the course.

6. Final Exam (15 points)

The final exam may include multiple-choice and application items and short-essay question that cover assigned readings and class lectures. In addition, the final exam will include items related to the Fox self-study AND the Virginia Reading Assessment (VRA).

GRADING

1. Self-paced Completion of Fox Text	6 points
2. Group Project	15 points
3. Final Project: Case Study	40 points
4. Midterm	10 points
5. Participation, Quizzes and In-Class Activities	14 points
6. Final Exam	15 points
TOTAL	100 POINTS

Student Self-Management for Calculating Course Grade Based on Points Earned on Performance Based Summative Evaluations	
Title of Performance-Based Summative Evaluation	Points Earned/Total Points
1. Self paced completion of Fox text	/6
2. Group Project	/15
3. Final Project: Case Study Part I	/20
4. Final Project: Case Study Part II	/20
5. Midterm	/10
6. Participation, Quizzes and In-class Activities	/14
7. Final Exam	/15
Total # of points earned	/100

Students can calculate their points earned/total points available at any date in the semester in order to determine what their grade-to-date is. This is particularly important for students to self-evaluate their performance prior to key dates in the George Mason University schedule, such as withdrawal dates with varying tuition penalties.

Grading Scale:

A 94 – 100 points

A- 90 – 93 points

B+ 86 – 89 points

B 82 – 85 points

B- 79 – 81 points

C 78 points and below
