Couples and Family Counseling
(EDCD 658 001)

Instructor: Judy A Stone, Ed.D.
Office Hours: By appointment
E-mail: jstoned@gmu.edu

Times: Mondays 7:20-10pm
Location: Robinson Hall A349
Phone: 202-324-2170 (o)
Credit Hrs: 3

Prerequisites
EDCD 603
EDCD 609 (course may be taken concurrently)

Course Description
This course provides an overview of the theory and practice of family counseling/therapy since its inception. Major systemic theoretical orientations will be explored. Students will increase skills in critical thinking of assigned reading and self-awareness of the influences in adult life of family-of-origin dynamics. Students will broaden their knowledge of issues of trauma and violence in family systems. Students will have an opportunity to design individual or group learning contracts to focus on an area of family therapy as it pertains to issues of social justice.

A variety of instructional approaches will be used, including:

- **Lecture.** Although there will be lecturing in class, it is expected that all students will have read the assignments prior to each class meeting, and thus major portions of class time will be devoted to class demonstrations of assessment procedures, case studies, class discussion, role-playing exercises, audio-visual materials, etc.

- **Audio-Visual.** Film media will be used to show examples of how various theories and techniques are applied in actual practice. Although reading about specific theories and techniques is important, actually seeing them in practice is essential to learning.

- **Role-Plays.** There will also be an emphasis upon the use of role-plays to acquire and perfect skills in the treatment of couples and families. Some role-plays will be done in small groups, while others will be performed with the class as a whole.

Course Objectives
Upon completion of this course, student will:

1. Be able to conceptualize human health as well as dysfunction and its resolutions from a systemic perspective.
2. Demonstrate mastery of theory, research and clinical knowledge of three major schools of family counseling/therapy. Students will be able to relate these
theories to the family life cycle in the context of diversity (ethnicity, religion, social class, disability, and sexual orientation).

3. Demonstrate clinical skills working with families in clinical setting.
4. Be able to identify the connections between family-of-origin issues and client couple/family issues.
5. Demonstrate an understanding of the interface of family/couples counseling and social issues.
6. Be familiar with some of the many resources and certification programs available to aid and enhance their work with couples.

**Relationship to Professional and Program-Related Goals**

The syllabi of all courses taught at the university are designed to meet the specification of a specialty professional association. The professional association used for the development of this course is the American Counseling Association (ACA). The Code of Ethics and Standards of Care for ACA delineates ethical practice and the following statement demonstrates the basis for this course:

EDCD 658 is designed for Counseling Students. It is designed for midway through the curriculum in order for the student to be familiar with basic counseling skills and applications, have an understanding of family and couples theory and practical skills. EDCD 658 addresses basic fundamental theory and practice skills. Additional emphasis will be on C&D’s basic mission statement, stressing the need for counselors to demonstrate Advocacy, Leadership, Social Justice, and Multicultural Competencies.

**Required Texts**

**Recommended Texts**

**Recommended Reading:**
The professor attempt to have the following articles will available on Electronic Reserves. The link to access e-Reserves is: [http://oscr.gmu.edu/cgi-bin/ers/OSCRgen.cgi](http://oscr.gmu.edu/cgi-bin/ers/OSCRgen.cgi)
The password for accessing Electronic Reserves is: couples___________

Assignments
Students are expected to be critical thinkers and readers. Assigned materials are to be read using the skills of analysis, synthesis, and application. Students’ understandings of assigned readings and activities will be reflected through their participation in class.

Written assignments will be graded not only in terms of content and accuracy, but also for proper grammar. Writing style must reflect correct grammar and spelling, proper word usage and vocabulary, accurate sentence structure and syntax, clarity, and fully developed ideas and concepts. Papers should be double spaced with 12-point font. Title and reference pages are not included in required page counts. All written work submitted in the C&D program courses must conform to APA standards. Students are expected to purchase the APA manual (5th edition) and consistently demonstrate successful application of its content. Sample portions of the APA manual appear in the “Styles Guides and Manuals” link on the GMU library web guide. For 2011 updated guidelines see http://owl.english.purdue.edu/owl/resource/560/08/.

The following assignments are designed to guide students in accomplishing the course objectives. Late assignments will be penalized 10% for each day not submitted. This penalty may only be waived due to a personal emergency for which appropriate documentation (i.e. doctor’s note) is provided to the professor. Students will submit assignments via Blackboard by midnight on the date that an assignment is due.

1. Attendance and Participation
Attendance and active participation is required at every class. Please make sure you have read the assigned readings for the week and that you come to class prepared to discuss and critique them. You will be evaluated on the quality of
your class participation and the clinical skills and theoretical knowledge you display in role-plays. Students are expected to attend each class on time and remain for its duration, unless otherwise agreed to in advance by professor and student. Frequent tardiness and/or absences (excused or unexcused) will result in a reduction in letter grade for the class. More than two absences (excused or unexcused) will result in a failing grade or request to withdraw from the course.

2. **Genogram**
Create a genogram of your family.* Include at least three generations (i.e. you, your parents, and your grandparents). Please identify the following on your genogram:

- Names, dates of marriage/births/deaths/separations/divorces (month & year), cultural/ethnic/religious affiliations for all significant family members.
- Other information like immigration, occupation, education, city/state of residence, illnesses, substance abuse, mental health. Add descriptive information that clarifies relationships as needed (e.g. drug use, in jail, etc.) You may create a “legend” if additional explanation is warranted.
- Show schematically the nature of key relationships (e.g., closeness, distance, conflicts).

Previous students have found that having interviews/conversations with family members around these areas provide new insight. Students are encouraged to contact siblings, parents, uncles/aunts, grandparents for corroborating information. Relatives’ responses to such requests can be very informative.

If necessary, you may use a sheet of paper larger than 8.5”X11.” The use of different colors for relational lines, etc. may enhance the presentation of the information. Please do not use pencil (smears too easily).

*This information is intended for both academic mastery of one form of family assessment, but also self-reflection for the student. Disclose only the information that you feel comfortable sharing. Your professor will keep the information you share confidential.

3. **Take-home Mid-term Exam (via Blackboard)**
The mid-term will consist of multiple choice (80% of grade) and brief essay questions (20% of grade). The exam will be drawn from class lectures and discussions as well as assigned readings. Students will be allowed to use textbooks and notes to assist with the exam, but students may not consult with anyone else regarding exam items.

4. **Group Presentation**
As part of a group of 4-5 students, deliver a presentation and lead a brief discussion on a topic pertinent to Family/Couples Counseling and Social Issues.
Please provide relevant handouts for the class. The use of multi-media and innovative presentation styles is also encouraged.

Prior to presenting, each group will need to submit a brief outline of its plans for the presentation for approval. The professor will then provide suggestions to further shape your topic. *Proposals are due by 9/26*, but topics and presentation dates are approved on a “first come, first serve” basis. Possible topics include:

- Families living in poverty
- Couples & Sexuality
- Child abuse/trauma
- Domestic violence
- Divorce & remarriage
- Parenting
- Problems of school-aged children
- Issues facing LGBT couples & families

Each presentation should be about 20 minutes in length. Because of time restraints, no group will be allowed to present for longer than 25 minutes. Group members are responsible for keeping track of time and tailoring their presentations accordingly.

5. **Take-Home Final Exam**

This assignment is similar to the type of task you might be asked to do for your comprehensive examinations. You will be presented with two cases (a family and a couple). Each student must select either case and then use one of the theories presented in class to write a case conceptualization and treatment plan. More details to follow.

**Student Evaluation**

Assignments will comprise the following percentages of each student’s final grade:

- Class participation 10%
- Genogram 20%
- Midterm Exam 25%
- Group Presentation 20%
- Final Exam 25%

In accordance with George Mason University Grading Policy, the following grades may be achieved:

- A 100-96
- A- 95-91
- B+ 90-87
- B 86-83
- B- 82-80
- C+ 79-76
COLLEGE OF EDUCATION AND HUMAN DEVELOPMENT

Student Expectations

- Students must adhere to the guidelines of the George Mason University Honor Code [See http://academicintegrity.gmu.edu/honorcode/].
- Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor, in writing, at the beginning of the semester [See http://ods.gmu.edu/].
- Students must follow the university policy for Responsible Use of Computing [See http://universitypolicy.gmu.edu/1301gen.html].
- Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
- Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.
- Students are expected to exhibit professional behaviors and dispositions at all times.

Campus Resources

- The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students’ personal experience and academic performance [See http://caps.gmu.edu/].
- The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See http://writingcenter.gmu.edu/].
- For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website [See http://gse.gmu.edu/].
