

**EDRS 590 001: Educational Research (3 credits)**

**Spring 2016 Thurs 7:20-10 PM**  
**Thompson Hall Room L013**

**Instructor: Dr. Kimberly Sheridan**  
**Office: West Building Room 2204**  
**Office Hours: by appointment (please email).**  
**Email address: [ksherida@gmu.edu](mailto:ksherida@gmu.edu)**

**Prerequisites:** None

**Catalog Description:** Develops skills, insights, and understanding to perform research, with emphasis on interpreting and applying research results. Critiques research, and uses findings in educational settings.

**Course objectives:**

This introductory research course examines connections among theoretical frameworks, research questions, methods of data collection, analysis and reporting. The purpose of this course is to introduce you to an understanding of quantitative, qualitative, and mixed methods inquiry. This will involve reading about research. You will be introduced to the basics of research design, including identifying a problem, conducting a brief literature search, describing data collection and analysis, writing, and ethics. A general intent of the course is to help learners to become better consumers of research, and to understand the ways education research relates to instructional practice and school improvement.

Learners will begin to:

- gain critical perspectives in order to understand the validity of education research;
- use appropriate reference sources to locate publications relevant to a topic of their choice;
- understand measures of central tendency and dispersion and their application to important education outcomes;
- Develop an informed perspective on issues in education that is grounded in contemporary research;
- Understand how teachers or administrators can use research to enhance instruction and inform practice;
- Use various social science perspectives as the foundation for advocacy and change; and
- Be able to apply technology to the task of conducting education research.

**III. EDUCATIONAL PSYCHOLOGY PROGRAM STANDARDS**

Across the many course in the Educational Psychology, a number of standards will be addressed. These standards are noted below. Those emphasized most strongly in this course are in bold text.

1. Candidates will demonstrate an understanding of principles and theories of learning, cognition, motivation, and development as they apply to a wide variety of contemporary learning contexts.
2. Candidates will use their *knowledge, skills, and dispositions* to apply principles and theories of learning, cognition, motivation, and development to analyze and develop instruction in applied settings.
3. **Candidates will demonstrate an understanding of the basic concepts, principles, techniques, approaches, and ethical issues involved in educational research.**
4. **Candidates will use their knowledge of quantitative and qualitative research methodology to critically read and evaluate quantitative and qualitative research articles.**
5. **Candidates will use their knowledge of quantitative and qualitative research methodology to develop a research proposal and conduct research.**
6. **Candidates will demonstrate critical thinking, oral presentation, technological, and writing skills as they are used in the profession. These include:**
  - **Knowledge and use of APA style**
  - **Oral presentations**
  - **Poster presentations**
  - **Article abstracts**
  - **Research proposals**
  - **Literature reviews**
  - **Technological skills (including library/reference skills, interactive displays skills, data analysis skills)**

**Format:** The class sessions will include both lecture and discussion as well as group work.

**Required Materials:**

McMillan, J. H. (2016). *Fundamentals of Educational Research* (7th Ed.) Boston, MA: Pearson

**Strongly Recommended:**

American Psychological Association. (2010). *Publication manual of the American Psychological Association* (6th ed.). Washington, DC: Author.

**TK20 Performance-Based Assessment submission Requirement**

Every student registered for any Educational Psychology course with a required performance-based assessment is required to submit this assessment, Not/applicable to Tk20 through Blackboard (regardless of whether the student is taking the course as an elective, a onetime course or as part of an undergraduate minor). Evaluation of the performance-based assessment by the course instructor will also be completed in Tk20 through Blackboard. Failure to submit the assessment to Tk20 (through Blackboard) will result in the course instructor reporting the course grade as Incomplete (IN). Unless the IN grade is changed upon completion of the required Tk20 submission, the IN will convert to an F nine weeks into the following semester. **Not applicable to this course.**

**Class Preparation:** Information on course assignments and slides for class lectures are available on the course blackboard site.

**Class Attendance & Participation:** Students are expected to come to class on time, complete assignments, and participate in class discussions.

## ASSESSMENT:

### **HSRB CITI Training Module Completion (10%)**

GMU requires a Mandatory Training for Persons Conducting Research Using Human Subjects. Seven learner modules in the Basic Course are required prior to applying to conduct any research at Mason using human subjects. **For this course, you will be required to complete the Basic Course.**

- This online training module can be accessed at <http://www.citiprogram.org>. (You must complete the required basic course before the optional modules are available).
- Specific directions for how to log on can be found at the GMU Office of Research Integrity Assurance (ORIA) website: <http://oria.gmu.edu/research-with-humans-or-animals/institutional-review-board/human-subjects-training/>

\*Upload a copy to the requisite section of Blackboard. You should save a copy for

GMU also requires that all researchers (including student researchers) submit a research application to the office of Human Subject Protections PRIOR to conducting research. For this course, you should review the application form for class discussion.

- Application forms and guidelines can be found at the GMU Office of Research Integrity Assurance (ORIA) website: <http://oria.gmu.edu/>

**Critique of Two Empirical Research Articles (10% each):** Students will write a critique of one quantitative intervention study **and** one qualitative study obtained from a peer-reviewed journal. The critiques should include the following parts: purpose, methods, results/findings, and critical comments as well as your reflections about the article (see Blackboard site for specific instructions).

### **Research Proposal (*paper*) (40%)**

Students will write a research proposal (introduction, literature review, and method sections). This proposal should build on existing research and may replicate and extend previous research studies. The proposal will contain relevant sections specific to the research design (see sample paper on Blackboard as well as pp 41-59 of the APA manual). Organizational headings may vary depending on your research design and the specifics of your individual study. Be sure to refer to the APA manual as well as similar work in your field to help you determine what is critical to include in your own proposal. Also refer to the APA manual for how to format headings and citations appropriately. To submit, upload an electronic version on the relevant assignment box Blackboard site.

**\*\*There are checkpoints along the way where drafts may be submitted for feedback (noted as CP on the tentative schedule).**

*Proposal Requirements:*

- **Introduction & Literature Review**
  - Brief introduction to the topic & literature review. (If you are replicating and extending a previous study, you should be sure to describe the original work).
  - Statement of purpose and research questions.
- **Method**
  - **Research Design**
  - **Participants** (when applicable, should include setting, subjects, interventionists)
  - **Measures**
  - **Intervention** (when applicable, should include control/alternate treatment)
  - **Procedures** (when applicable, should include study procedures, data collection procedures, scoring procedures, fidelity of treatment procedures)
  - **Ethical Considerations**
  - **Proposed Preliminary Data Analyses**
- **References**

**Exam (20%):** One exam will cover the material from the class and textbook and include multiple choice as well as short answer questions.

**In Class Assignments, Participation, and Attendance Policy (10%):** Students will be asked to work individually or in groups of 2-3 students in class assignments throughout the semester. Because of the importance of lecture and discussion to your total learning experience, I wish to encourage you to both attend and participate in class regularly. Attendance, punctuality, preparation, and active contribution to small and large group efforts are essential. These elements of your behavior will reflect the professional attitude implied in the course goals and will account for 10% of your course grade. Students who must miss a class must notify the instructor (preferably in advance) and are responsible for completing all assignments and readings for the next class

**GRADING SCALE:**

Grades will be assigned based on the following:

A+	98-100%	B+	88-89%	C	70-79%
A	93-100%	B	83-87%	F	below 70%
A-	90-92%	B-	80-82%		

Final grades are based in the assessments described above. “Extra credit” is not available.

**Late Assignments:** *As a general rule, late assignments will not be accepted.* If you believe you have EXCEPTIONAL circumstances and wish to negotiate to have extra time to complete course work, you must discuss this with me before the day the assignment is due. (Negotiating may mean that you will be sacrificing a portion, perhaps substantial, of your grade for extra time).

## GMU Policies and Resources for students

- a. Students must adhere to the guidelines of the George Mason University Honor Code [See <http://oai.gmu.edu/the-mason-honor-code/>].
  - b. Students must follow the university policy for Responsible Use of Computing [See <http://universitypolicy.gmu.edu/policies/responsible-use-of-computing/>].
  - c. Students are responsible for the content of university communications sent to their George Mason University email account and are required to activate their account and check it regularly. All communication from the university, college, school, and program will be sent to students solely through their Mason email account.
  - d. The George Mason University Counseling and Psychological Services (CAPS) staff consists of professional counseling and clinical psychologists, social workers, and counselors who offer a wide range of services (e.g., individual and group counseling, workshops and outreach programs) to enhance students' personal experience and academic performance [See <http://caps.gmu.edu/>].
  - e. Students with disabilities who seek accommodations in a course must be registered with the George Mason University Office of Disability Services (ODS) and inform their instructor, in writing, at the beginning of the semester [See <http://ods.gmu.edu/>].
  - f. Students must follow the university policy stating that all sound emitting devices shall be turned off during class unless otherwise authorized by the instructor.
  - g. The George Mason University Writing Center staff provides a variety of resources and services (e.g., tutoring, workshops, writing guides, handbooks) intended to support students as they work to construct and share knowledge through writing [See <http://writingcenter.gmu.edu/>].
2. Professional Dispositions  
Students are expected to exhibit professional behaviors and dispositions at all times.
  3. Core Values Commitment  
The College of Education & Human Development is committed to collaboration, ethical leadership, innovation, research-based practice, and social justice. Students are expected to adhere to these principles. <http://cehd.gmu.edu/values/>

**For additional information on the College of Education and Human Development, Graduate School of Education, please visit our website <http://gse.gmu.edu/>**

### Tentative Schedule

	<b>Class</b>	<b>Topic</b>	<b>Reading</b>	<b>Due</b>
1/21	1	Intro: What is Research? Type of Research	Chap 1	
1/28	2	Ethics Discussion of	Chap. 2	<i>Examine CITI training info</i>
2/4	3	Literature Review <b>Guest Speaker: Anne Driscoll, Education Librarian (9-10 PM)</b>	Chap. 4	
2/11	4	Research Questions, Variables, and Hypothesis	Chap. 3	<i>Locate Articles for Critique Assignments</i>
2/18	5	Sampling	Chap. 5	CP 1: Minimum 5 articles for Literature review
2/25	6	Measures & Statistics	Chap. 6	CP 2: Research questions CP 3: sample
3/3	7	Reliability & Validity Exam review	Chap. 7	CP 4: Literature review
3/10 Spring Break	8	Have fun!		
3/17 No Class	9	Dr. Sheridan out of town presenting at a research conference	<b>Review for Exam</b>	
3/24	10	<b>EXAM</b>		
3/31	11	Quantitative Design	Chap. 8 & 9	
4/7	12	Quantitative Design & Data Analysis	Chap. 10	
4/14	13	Qualitative Design	Chap. 11	<b>Quantitative Critique Due</b>
4/21	14	Qualitative Design & Data Analysis	Chap. 12	CP 5: Design section
4/28	15	Mixed Methods Conclusions	Chap. 13 & 15	<b>Qualitative Critique Due</b>
5/5	16			<b>Research Proposal Due by 10 pm</b>
