# GEORGE MASON UNIVERSITY GRADUATE SCHOOL OF EDUCATION PROBLEMS AND METHODS IN EDUCATIONAL RESEARCH—EDRS 810

Spring 2004

**Instructor:** Professor S. David Brazer

 Phone:
 (703) 993-3634

 Fax:
 (703) 993-2011

 E-mail:
 sbrazer@gmu.edu

Website: http://blackboard.gmu.edu

**Address:** George Mason University

4400 University Dr., MSN 4B3

Fairfax, VA 22030-4444

### **Schedule Information**

**Location**: PACE West, Haymarket, VA

Meeting Times: Tuesdays, January 6 – May 11. This class meets inside the 5:00 –

9:00 time frame, but dates and times vary. Please see the combined EDLE 803 and EDRS calendar at the end of the syllabus. If you have a personal problem that will prevent you from attending class,

please contact me by telephone or e-mail.

#### **Course Description**

#### **Course Delivery**

#### **Course Goals**

## *Teaching and Learning:*

- 1. Each class will mirror as much as possible the real world of a school administrator and will reflect good management. I expect that we will:
  - start and end on time;
  - maintain and follow a written agenda for each class;
  - listen first to understand, then seek to be understood; and
  - work toward common goals in a professional and cordial manner.
- 2. Every student product will as closely as possible reflect what would be expected from a school administrator. Consequently, students will:

- write short analyses, often in memo form;
- present data in a clear, readable format;
- run meetings that range in size from one-on-one to 20; and
- participate in role playing and other interactive activities, consider the experience, and communicate about the experience.
- 3. Writing is a vital activity for any school administrator. Therefore, I will emphasize the process of writing so that students will achieve the following objectives:
  - Students will develop greater confidence in their ability to write expository, analytical and persuasive prose.
  - Students will learn how to review their own work and the work of others to eliminate errors and maximize clarity.
  - Students will produce written products immune to criticism from a skeptical public.

#### Classroom Climate:

Our classroom must be a place in which we can try out new ideas and take risks free from the fear of embarrassment. We must be able to look at each other's work critically so that we may all receive valuable feedback that will help us to do our jobs better in the future. Therefore, I expect a commitment from all of us to:

- 1. be fully prepared for each class session;
- 2. respect and care about one another as human beings;
- 3. work toward a common purpose;
- 4. persevere through common challenges; and
- 5. affirm one another's successes and help one another overcome weaknesses.

## Professional Development:

I see this course in a context larger than the boundaries of its content. Therefore, it is important to keep in mind goals for each student's administrative career. This course is part of a larger picture of administrator training that seeks to develop the student to be:

- 1. a thoughtful, wise administrator;
- 2. a careful, decisive decision maker;
- 3. the kind of person who can understand detail and the big picture simultaneously;
- 4. a supervisor, an assistant principal, a principal, and/or a superintendent capable of visionary school leadership; and
- 5. a strong colleague who will be a valued member of any team.

•

# **Student Outcomes**

At the conclusion of this course, successful students should be able to:

# **Course Materials**

Readings

Maxwell, J.A. (1996). *Qualitative research design: An interactive approach*. Thousand Oaks, CA: Sage Publications

This course may also involve readings from various journals that will be distributed in class.

Classroom Materials

I expect all students to maintain a binder that contains all readings, reading notes, class notes, student products, and class handouts. The binder will probably need to have at least 2-inch rings.

Outside-of-Class Resources

All students are required to use <a href="http://blackboard.gmu.edu">http://blackboard.gmu.edu</a> as part of this course. This is an Internet site at which I will post vital information for the course and through which we will communicate from time to time. This site will be particularly important if we experience school shutdowns because of the weather. Consequently, I expect all students to have access to a personal computer that is linked to the Internet and the ability to use word processing software.

# **Grading**

Students' grades are based on their proficiency with respect to the student outcomes stated above. Each outcome will have an oral (class participation) and/or a written component. The outcomes are weighted as described below:

OUTCOME	ORAL	WRITTEN	POINTS
Students will		Students will write a	15
understand the		white paper that places

Below are the basic percentages for the various kinds of work required for the class, but students should always bear in mind that grading is primarily my judgment about your performance. Grades are designed to indicate your success in completing the course, not the level of effort you put into it.

Class participation percent
Writing assignments percent
Internship Plan percent

# **Participation**

You should anticipate making at least one oral contribution in every class session. I expect each student to take an active role in discussion and/or role-playing whenever opportunities present themselves. If you are absent or miss part of a class session, you may lose participation points. If you are absent for an oral activity listed above, you will not receive credit for that activity.

#### Absence From Class

Students are expected to attend every class for its entirety. Emergencies sometimes arise, however. If you need to be absent from class, I expect you to notify me in advance by telephone or e-mail. If you miss more than one class, you will lose participation points. If you come to class more than 30 minutes late or leave more than 30 minutes early, you will lose participation points. Papers due on a day you are absent **must be submitted via e-mail or fax by the due date.** 

#### Writing

Writing assignments will be made approximately every two weeks during the semester. Assignment titles appear at the end of this syllabus. Detailed assignment sheets and assessment rubrics will be distributed via Blackboard.

### Late Work

I expect students to submit their work on time. <u>I will not accept any work later</u> than one week after it is due. Any attempt to submit work past the one-week deadline will result in no credit for the assignment.

Students may revise and re-submit graded work to improve their performance. Such revisions are due **not later than one week after** receiving my feedback on the previous draft. I may re-consider an assignment grade, but I will not negotiate grades with students.

# **Grading Scale**

A = 95 - 100 percent A- = 90 - 94 percent B+ = 85 - 89 percent B = 80 - 84 percent C = 75 - 79 percent F = 74 percent or below

# **GMU Honor Code:**

Students are expected to abide by the George Mason University Honor Code. Violations (such as cheating, attempted cheating, plagiarizing, lying, stealing) will be reported to the Honor Committee. Please refer to the University Catalog or <a href="www.gmu.edu">www.gmu.edu</a> for the full Honor Code. Ignorance of the code is not a defense.

# Weekly Topics, Reading Assignments, and Writing Assignments

<u>Date</u>	<u>Topics</u>	<u>Assignments</u>
January 6	<ul> <li>Introduction</li> <li>What is research and how does it differ from other writing?</li> </ul>	<ul> <li>Be prepared to discuss how your literature is helping you and where the gaps are at this point.</li> <li>In five minutes or fewer, present one particularly strong article or one particularly weak one.</li> </ul>
